

106 Remote Head

size does matter

Delivering High Quality Movements

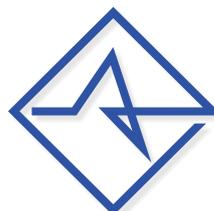

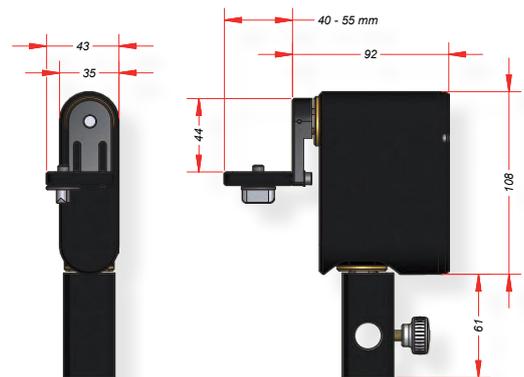

The Egripment 106 Remote Head is the smallest among the remote controlled camera heads. In combination with the latest 1-chip HD video cameras, the 106 Head is unique.

The 106 Head offers variable speed controls that can pan and tilt a full 360 degrees in speeds ranging from 2.5 seconds to 17 minutes.

The 106 Head is the ideal remote head for sports events, rock/pop concerts, scaled sets and at locations which are dangerous for a cameraman. 301 Remote Camera Head is our latest head in the extensive line of Egripment Remote Camera Heads.
